President Taft had expressed a desire to go straight to the Jefferson Hotel, fearing that the club receptions of the evening would be of a formal nature. He was assured that the Westmoreland dinner was to be a purely informal affair, at which those who had come with him from Old Point would be practically the only guests. He readily consented, and came smiling from the car to pass between double lines of bluecoats to the waiting motor cars.

President's Party Stops at Williamsburg.

On his way to Richmond the President stopped for half an hour at Williamsburg to visit William and Mary College and Bruton Church, which dates back to 1632. From the pulpt of the historic church he made a little speech, in which he declared that the making of the Constitution and the making of the nation were indelibly linked with the men who lived in Williamsburg and other parts of Virginia.

"The men who lived in Williamsburg and all through Virginia," said the President, "fought the early fights with the old Governors, that those of us in Ohio hardly knew were fought, and yet were the real bases for the successful struggles that came later."

Charles P. Taft, the President's brother, who accompanied him to Panama, left the party at Williamsburg and continued on to his home in Cincinnati, by way of the Chesapeake and Ohio Railway.

An evening paper caused a sensation by flooding the city with placards that Crippen had made a written confession. Every one in position to know denied this. Ethel Leneve said: "I was the last person to see Dr. Crippen. So far as my knowledge extends he has not made a statement."

It was also reported that Crippen today wrote a statement for a Sinday paper, which bought a previous story of his. The paper, however, denies that it has his confession.

Miss Leneve, at the request of the prisoner, paid a farewell visit to Crippen at Pentonville Prison this afternoon. She rached the place in a closed cab, and was accompanied by an elderly man who remained outside.

Miss Leneve remained for half an hour in the visitors room with the doctor. During her stay, the wardens watched the condemned man closely. Crippen slept well last night, and this morning ate a hearty breakfast. Story of His Crime.

The hanging of Dr. Harvey Hawley. Crippen for the murder of his wife. Belle Elimore, is the last chapter of one of the most brutal and dramatic murder cases that has engaged the attention of the people of both continuents for many years.

The cold-blooded manner in which the murderer committed the deed; the ingenious schemes he devised for a covering up his tracks; and the thrilling capture of himself and his compliance of the proposed of the safe that the safe that the principle of the principle of the high seas through the aid of wireless telegraphy, all combined to make it a case without precedent.
